

Technical Guide

We recommend
250-320 g
Polyester banner
material or similar

Mounting
of banner
on alu profile
with tape

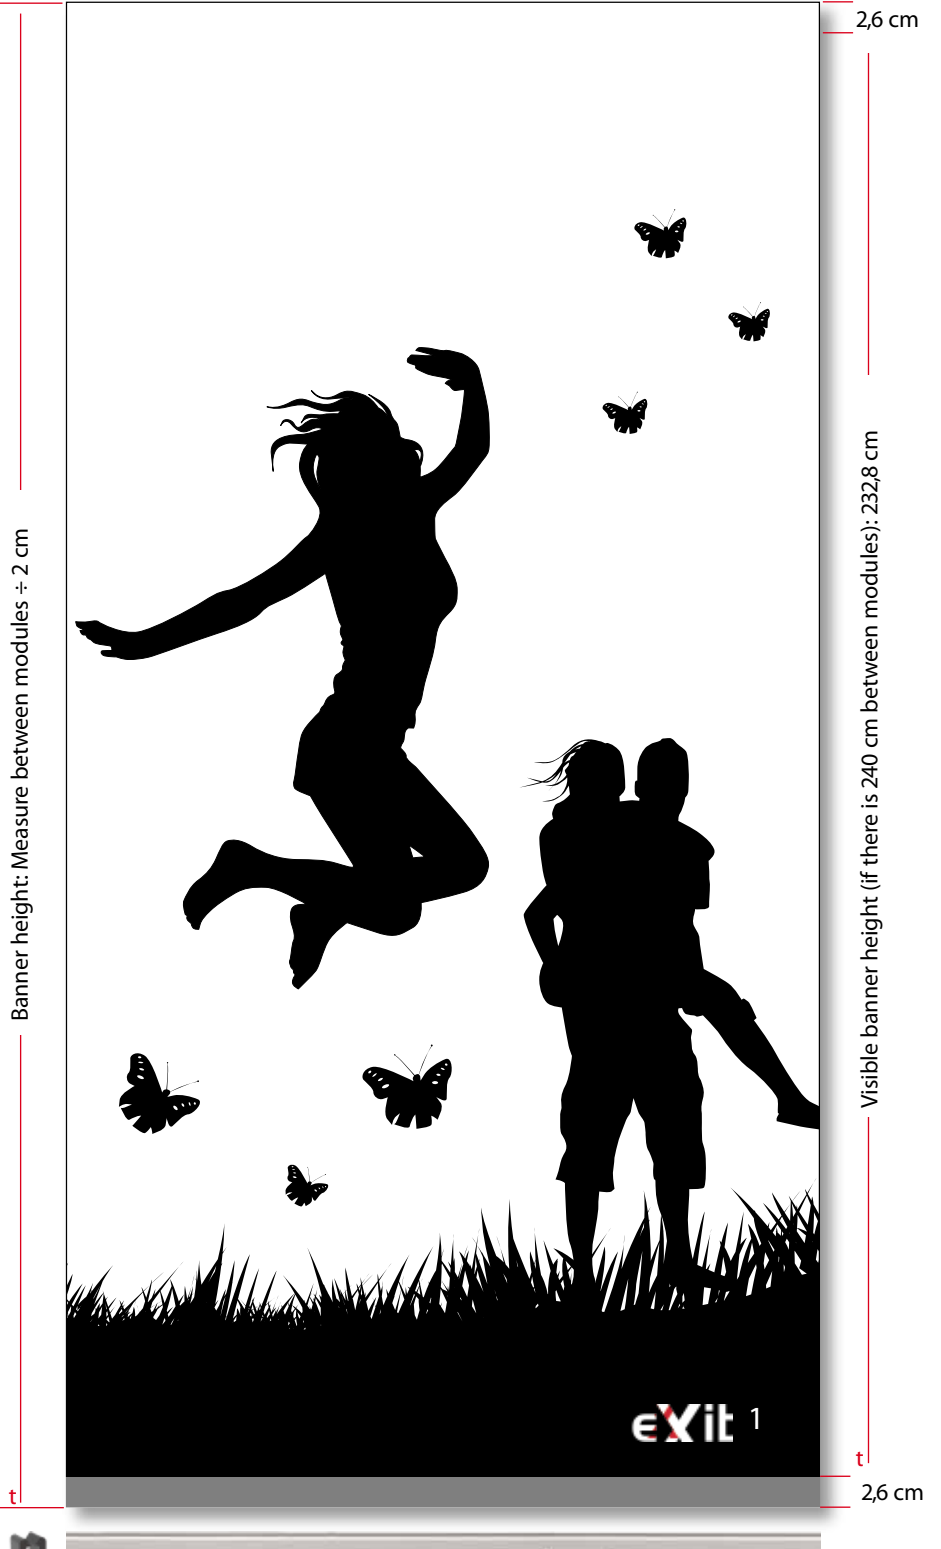

GB Banner size - if your banner must fit into a module with the inner measure 120 cm in width and 240 cm in height, the banner width must be 1 cm narrower and the height 2 cm lower.
End measure: 119 x 238 /232,8 cm.
Approx. 2,6 cm in top and bottom of the banner must be wrapped around the alu profile and are thus not visible.
The alu profile is mounted with tape.

Top clip: 2 pcs. per banner metre

Aluprofile with tape

Bottom clip: 2 pcs. per banner metre

Banner width: Measure between modules ÷ 1 cm
